# HEY, I'M JULIE

I'm the face behind the camera! I have been photographing families & babies for 9yrs now. I have always loved taking photos either on holidays or of family and friends. So after my son was born I decided to turn my passion for photography into a business.. It has been amazing to watch all the families grow over the years. I started out as a portrait photographer but found my way into lifestyle and storytelling sessions, and found a whole new love for photography. I love capturing the family's story & connection a whole lot more. And my families love it too. I love to interact with my clients.

LET'S DO IT!

A woman with long blonde hair in a braid is sitting on the ground, looking down at a young girl with brown hair in a braid. The girl is looking up at the woman. They are both wearing light-colored, long-sleeved tops. The background is a field of tall, dry grass. The overall tone is warm and intimate.

# Experience

Once your book in your session I am with you every step of the way... I send you my what to expect guide so you know what to expect from me before, during and after your session. I also send you my styling guide so you know what colours to dress everyone in and what's going to look amazing and what isn't! I send you my client closet guide which I have been told is amazing and mums really love it as they don't have to go buy new outfits for everyone and mums get to wear a pretty dress without having to make room in their closet for!!

Locations yes you choose where you want to go from my location guide which explains all about my locations I have available.

And.... I am here to help to along the way I don't just send these and then go mute we will be talking outfits and which spots you like the most and if you are going to buy outfits for any family members you can send me photos asking will they work or not. I am there with you every step of the way. I want you to love your photos!

# MATERNITY

Sunset sessions are perfect for maternity sessions. With the whole family or just for the mumma and her beautiful bump . If the fam is coming along we will do whole family shots along with just mumma and mumma and hubby/partner and also mumma and her older babies. These sessions are great for getting the whole family involed but still capturing those moments of mum to be and her beautiful bump.

# FAMILY

Grab the whole fam & I'll bring the fun!! I'll have your snuggled up and loving on your babies, and sneaky kisses and cuddles with your partner ( I don't forget about the parents I make sure they have a moment or two for just them ) plus I'll have parents throwing the blanket up for the kiddies to run underneath piggy back rides with dad & high five's, kids picking flowers to give to mum. I'll capture those moments of your kiddies have fun either on their own and/or with their siblings. Before you know it the sun has almost gone down and the kiddies are saying how much fun it was and can they do it again tomorrow! Even the dad's have a good time and tell me they didn't want to do this but... this was fun!

# CHILDREN

Sunset sessions aren't just for family & maternity shoots. We can do them for children sessions too. You might be wanting to capture your child's next milestone in the great outdoors or wanting some updated photos of the kiddies without being in them as you're wanting family members to come visit. I don't use props as such just blankets and even bring some pillows and capture all those cute photos like the picture to the right!

# NEWBORNS

Yes we can do newborn sessions at sunset! These are great for families who missed out on a newborn session within your baby's first few wks or being born. Because I will capture everyone having cuddles with the newest member their family and close up's of bubs and still capturing those tiny details like them holding parents fingers and their 10 tiny toes. These sessions are even more relaxed as bubs won't be getting all wrapped up for prop photos. You still have access to my newborn outfits if you would like I will also bring a couple of wraps so we can place round bubs and to use for the wrapped up feet shots.
